I. Introduction

The Dermatology Foundation was established four decades ago to foster the careers of talented young investigators who display the potential to shape the future of dermatology through their research and teaching expertise. In its early years, the Foundation provided modest grants of $5,000 representing less than $100,000 in annual funding. Over forty years later, the Foundation remains fully committed to furthering the specialty of dermatology by offering a variety of career development, fellowship and research grants through its Research Awards Program. In 2005, nearly $3 million dollars was allocated to support dermatologic research. Fifty-five (55) award recipients were selected to receive Foundation awards.

Now Accepting Applications for 2006

The Dermatology Foundation is pleased to announce the commencement of the application and review process for its 2006 research awards. The following pages provide essential information potential applicants need to know to evaluate the various award opportunities, and develop a successful application and research proposal. Interested individuals are strongly encouraged to read sections II and III before beginning any paperwork. All applications for the 2006 award year must be sent to the Dermatology Foundation for receipt by Monday, October 17, 2005.

2006 Program Updates

The Foundation is pleased to introduce a new career development award sponsored by the Women’s Dermatologic Society for the 2006 funding year. The Women’s Health Career Development Award was established to provide support for research in areas of women’s health, which range from disorders that affect primarily women, such as lupus and scleroderma, to the effects of hormones and environmental factors on the skin.

In 2006, the Foundation will not extend awards in the Research Fellowship category. The DF, however, will continue to offer the Dermatologist Investigator Research Fellowship and the Fellowship in Pediatric Dermatology awards for applicants seeking support following completion of their residency in dermatology. The decision to forego basic research fellowships was made so that the Foundation can devote additional effort and resources to the multi-year career development awards.

The Psoriasis Career Development Award will not be offered as a separate category in 2006. However, funding opportunities will still be available in two other career development categories for applicants conducting psoriasis-related research. Junior investigators with a Ph.D. may apply for funding in the Research Career Development Award (RCDA) category. Candidates with an M.D. may consider competing for the Physician Scientist Career Development Awards.
II. Research Awards Program Overview

A. Foundation Awards

The Dermatology Foundation provides career and research support in the form of various career development awards (CDAs), fellowships, and grants. The career development awards provide the potential for three years of salary support for junior investigators in the early stages of their career. Foundation fellowships provide annual salary stipends to individuals who are in an earlier phase of their career, and are not intended for faculty. Research grants provide seed money for a variety of dermatological research projects. A special program development grant is available to further the infrastructure of an existing department or division of dermatology.

The detailed description, applicant eligibility criteria, and value of each award vary, and are presented in section III. Applicants should carefully review this information and be certain they meet the eligibility criteria before preparing any application materials.

B. General Eligibility Requirements

Research funded by the Foundation must conducted in the U.S. under the sponsorship of a division or department of dermatology. A project to be performed as a part of the U.S. government research program (except Veterans Administration), or to be performed at a private foundation without an academic affiliation to dermatology, is not eligible for funding. A project involving human subjects must have IRB approval at the time funding commences (July 1, 2006), and throughout the term of the award.

C. Institutional Application Quotas

The Foundation accepts the following number of award applications from a single academic program, including all affiliated institutions. The following quotas apply to new applications, and do not include renewal requests for career development awards. The department or division chair is responsible for ensuring an institution does not exceed the quotas.

<table>
<thead>
<tr>

</tbody>
</table>

* An institution may reach this quota by submitting applications for one ichthyosis and one research grant or two ichthyosis grants. An institution may not submit two basic research grants.
II. Research Awards Program Overview (cont.)

D. Application Process

Candidates are expected to personally prepare and submit their application materials to the Foundation. Section IV provides detailed instructions for preparing and assembling an application package. Applicants must download the necessary standard forms in a Word or PDF format from the Dermatology Foundation website (dermatologyfoundation.org). Extra care should be taken to follow the detailed format and content instructions for an award. Applicants should submit only the information required by the Foundation. Supplemental information of any kind will not be accepted. **If an application submission does not meet Foundation requirements or is incomplete, it may be returned without further consideration.**

E. Letters of Support

Some awards specify that certain subject matter be covered in letters of support from the chair and mentor (see section IV). Applicants should be certain all letters cover the necessary topics before they are submitted to the Foundation. Letters that do not meet the Foundation’s content requirements will cause an application to be incomplete.

F. Application Deadline

Applicants must mail their applications and supporting materials so that they are **received** by the Foundation office on or before **October 17, 2005**. Candidates should be sure that all components of their application arrive by the deadline—including letters of support. No additional materials will be accepted for consideration after the due date. The Foundation will confirm receipt of all application packages received on or before October 17th. The notice will be sent no later than the first week of December via e-mail.

G. Award Review and Selection Process

All complete applications received by the due date will be prepared for peer review by the Dermatology Foundation’s Medical and Scientific Committee. Members of the committee serve pro bono, and do not participate in the evaluation of applications from institutions with which they have a real or apparent conflict of interest. All committee members utilize a weighted value scoring methodology to guide their evaluation of applications for Foundation awards. This scoring method weights the importance of an applicant’s background, potential, research proposal, mentor, and environment. This evaluation aid is presented in section V and may be helpful in creating a successful application package.

Committee deliberations will take place on March 1 and 2, 2006. Recipients of the 2006 awards will be announced at the Foundation’s Annual Meeting on March 4th in San Francisco. Applicants are encouraged to be present at the meeting when the awards are announced. An award confirmation letter and contract, outlining the terms of the award, will be sent to all recipients in mid-April.
II. Research Awards Program Overview (cont.)

H. Award Terms, Conditions, and Funds Distribution

The 2006 funding period begins July 1. Award funds are to be used only for the designated recipient and project for which the application was made, and cannot be used for indirect costs of the institution. Recipients moving to another institution during the term of an award may be eligible to transfer the award. Requests for transfer must be submitted in writing to the Foundation in advance of the anticipated move so that the request can be appropriately reviewed.

The Foundation will disburse award money for career development awards and fellowships on a quarterly basis beginning on the project initiation date of July 1. Funds for grants are provided in two payments—90% at the start of the award term, and 10% on October 1. All recipients with projects requiring IRB review must submit proof of approval to the Foundation prior to the first payment. Final payments are distributed following receipt of the final financial and research reports. In addition, no funds will be distributed beyond one year of the award termination dates.

All awards are assigned to an individual. However, award checks are made payable to the institution and are sent to the fiscal officer for administration. Award recipients are responsible for submitting the final reports up to 30 days following the end of the funding period.

I. Renewal of Career Development Awards

Career development awards may be renewed on a non-competitive basis for a second and third year of funding. The renewal process for all career development awards is handled separately from the review of new award applications. A CDA recipient applying for renewal of an award must complete a renewal application and an interim research report, and submit them to the Foundation by **November 1, 2005**.

CDA renewals will be rigorously reviewed for significant progress, continued institutional commitment to career development, and efforts to obtain additional funding. In evaluating the progress candidates have made on their research, the period of time the projects have been underway will be considered. The Foundation will announce the renewed career development awards at the Annual Meeting on March 4th, 2006 in San Francisco. See section VI for detailed instructions regarding the renewal procedure for career development awards.

J. Applicant Questions

Questions concerning the application process or Research Awards Program can be directed to the Dermatology Foundation staff at (847) 328-2256 or dfgen@dermatologyfoundation.org. Applicants who have questions concerning the appropriateness of a particular award for their career path should consult their mentor and/or department chair.
III. Award Descriptions and Eligibility Requirements

The description and specific applicant eligibility requirements for each Dermatology Foundation research award are presented in this section. All Foundation awards are also subject to the general eligibility requirements presented in section II. Candidates’ application materials must clearly show they meet all eligibility requirements at or before the time of funding, July 1, 2006.

An applicant must apply for a specific award. The Dermatology Foundation’s research awards are grouped into the following categories:

A. Career Development Awards
B. Fellowships
C. Research Grants
D. Program Development Grant

A. Career Development Awards

The Foundation offers seven categories of career development awards (CDAs). These awards are highly competitive and may be renewed annually, for up to a total of three years of funding. Strong institutional commitment for an individual’s career development is essential for a recipient of any career development award, and must be clearly explained in the department chair’s letter of support. Renewal of a career development award for a second and third year will depend on a recipient’s ability to provide evidence of significant progress on the research project, continued departmental commitment to career development, and demonstration that other funding has been pursued.

All CDAs offer an annual salary stipend of $55,000 that can be supplemented from institutional sources so that the salary received by the recipient is commensurate with peers within the institution. A CDA applicant is encouraged to seek simultaneous grant support from the Dermatology Foundation and other agencies to provide for the non-salary components of the research being performed under the auspices of an award.

1. Physician Scientist Career Development Award

The Physician Scientist CDA supports the academic career of a physician-scientist who is devoted to clinical dermatology, and assists in the transition from fellowship to established investigator. This award is intended for the academic investigator demonstrating significant creativity in clinically relevant research.
III. Award Descriptions and Eligibility Requirements (cont.)

A. Career Development Awards (cont.)

1. Physician Scientist Career Development Award (cont.)

   **Applicant Eligibility Requirements:**
   
   - M.D.; M.D., Ph.D.; or D.O. degree
   - Completed training in a U.S. dermatology residency program
   - Appropriate initial training in relevant research (i.e., a two to three year research fellowship or postdoctoral training)
   - Faculty member in a department or division of dermatology
   - Must devote 75% or more of time to clinical research
   - Clinically oriented investigator in the early stages of academic career
   - Demonstrates a strong commitment to skin research
   - Strong institutional commitment for the individual’s career development
   - NOT available to a recipient of an NIH career development award

2. Clinical Career Development Award in Dermatologic Surgery

   The dermatologic surgery career development award supports research projects that will further the practice of dermatologic surgery, and develop the teaching, research and leadership careers of dermatologic surgeons. Priority will be given to new applications from institutions that do not currently have a recipient of this award. The mentor and environment are critical ingredients of successful applications.

   For other CDAs, the Foundation requires that 75% of the applicant’s time be devoted to research. However, the Dermatologic Surgery CDA requires no such time requirement. Instead, an applicant must identify the time commitment in the research proposal. The letters of support from the chair and mentor must certify the portion of the time the applicant proposes to devote to the research project.

   **Applicant Eligibility Requirements:**
   
   - M.D.; M.D., Ph.D.; or D.O. degree
   - Completed at least one-year post-residency surgical training in the U.S. at the time of funding
   - Junior faculty member in a department or division of dermatology
   - Strong institutional commitment for the individual’s career development
   - NOT available to an individual receiving simultaneous salary support from other granting agencies
III. Award Descriptions and Eligibility Requirements (cont.)

A. Career Development Awards (cont.)

3. Clinical Career Development Award in Health Care Policy

The health care policy CDA supports the establishment and development of health policy careers for dermatologists. Health policy research includes outcome studies, information system development, and evaluation of methods for delivery and practice of population-based dermatology. The environment of the candidate, the quality of project, and the ability of the project to clarify the place of dermatologic practice in the changing health care environment will be the primary criteria used to select an award recipient.

**Applicant Eligibility Requirements:**
- M.D.; M.D., Ph.D.; or D.O. degree
- Completed training in a U.S. dermatology residency program
- Faculty member in a department or division of dermatology
- Formal relationship with an organization with recognized expertise in health policy research (e.g., school of public health, health policy institute, etc).
- Must devote 75% or more of time to clinical research
- Clinically-oriented investigator in the early stages of academic career
- Strong institutional commitment for the individual’s career development
- NOT a recipient of an NIH career development award

4. Medical Dermatology Career Development Award

This CDA provides funding for future intellectual leaders, educators, and clinical scholars in that aspect of the specialty that addresses severe dermatologic disease. The award fosters the careers of young dermatologists who will become the future role models and mentors for physicians diagnosing and treating complex skin disease.

The Medical Dermatology CDA was designed for an individual who desires a patient orientation in his/her academic career, but whose interests are not a good fit within the NIH K-23/24 or KO8 grant mechanism. Such a person will select a focus of interest in which they intend to become an expert. The career plans, required in the research proposal, will detail the ways in which the applicant, aided by the mentor, will acquire expertise in an area of focus. The proposed career plans may be hypothesis driven research, or may systematically analyze natural history, response to therapies or outcomes of a complex, severe disease. The applicant’s mentor and mentorship program are important selection criteria.
III. Award Descriptions and Eligibility Requirements (cont.)

A. Career Development Awards (cont.)

4. Medical Dermatology Career Development Award (cont.)

Applicant Eligibility Requirements:
- M.D.; M.D., Ph.D.; or D.O. degree
- Completed training in a U.S. dermatology residency program
- Faculty member in a department or division of dermatology
- Must devote 50% of time to proposed research and 50% to the practice of medical dermatology
- Under the mentorship of a medical dermatologist
- Strong institutional commitment for the individual’s career development
- NOT available to an individual receiving simultaneous salary support from other granting agencies

5. Women’s Health Career Development Award

This career development award is offered for the first time this year and is sponsored by the Women’s Dermatologic Society. The award is intended to focus on women’s health issues where further research is needed. Funding is available for research in the areas of women’s health issues, which range from disorders that affect primarily women, such as lupus and scleroderma, to the effects of hormones and environmental factors on the skin and cutaneous aging.

Applicant Eligibility Requirements:
- M.D.; M.D., Ph.D.; Ph.D.; or D.O. degree
- Appropriate initial training in biomedical research (i.e., two to three-year fellowship or postdoctoral training)
- Faculty member in a department or division of dermatology
- Proposed research focuses on women’s health issue (see above)
- Must devote 75% or more of time to research
- Junior investigator in the early stages of career
- Demonstrates a strong commitment to skin research
- Strong institutional commitment for the individual’s career development
- NOT available to an individual receiving simultaneous salary support from other granting agencies

6. Research Career Development Award

This award assists an individual in the transition from fellowship to established investigator. It provides career development support in skin research for a junior investigator.
III. Award Descriptions and Eligibility Requirements (cont.)

A. Career Development Awards (cont.)

6. Research Career Development Award (cont.)

Applicant Eligibility Requirements:
- M.D.; M.D., Ph.D.; Ph.D.; or D.O. degree
- Appropriate initial training in biomedical research (i.e., two to three-year fellowship or postdoctoral training)
- Faculty member in a department or division of dermatology at time of funding and throughout the term of the award
- Must devote 75% or more of time to cutaneous research
- Junior investigator in the early stages of his/her career
- Demonstrates a strong commitment to skin research
- Strong institutional commitment for the individual’s career development
- NOT a recipient of an NIH career development award

B. Fellowships

The Dermatology Foundation offers two fellowships that are intended to advance the research careers of individuals in the early stages of career development. These awards are not intended to support faculty members—i.e., Assistant Professors or above are not eligible. Fellowships provide annual salary stipends. The award may be supplemented by departmental funds of the sponsoring institution or NIH training grants. Award funds cannot be used for payment of indirect costs. Requests for adjustments in the annual award period due to illness, childbirth or other mitigating circumstances will be considered.

In certain cases (i.e., importance of project or unusual merit in execution) consideration may be given for one additional year of support. To qualify for a second year of support, the applicant must submit a complete application package for competitive renewal. A second-year application should clearly set forth any changes in experimental direction or methods, and include a detailed progress report covering work already accomplished. A request for a second year of funding is unusual, and will be judged scientifically on an equal basis with requests for new support. In addition, the second-year application will be subject to the institution’s quota for new fellowship applications.

1. Dermatologist Investigator Research Fellowship

This fellowship supports dermatologists who desire research training and have a commitment to an academic career in medical and surgical dermatology. Consideration will also be given to individuals with substantial training in other areas who are entering into skin research. Applicants may NOT apply simultaneously for this award and a Foundation grant.
III. Award Descriptions and Eligibility Requirements (cont.)

B. Fellowships (cont.)

1. Dermatologist Investigator Research Fellowship (cont.)

   **Award Amount:**
   - $30,000 salary stipend

   **Applicant Eligibility Requirements:**
   - M.D.; M.D., Ph.D.; or D.O. degree
   - Completed training in a U.S. dermatology residency program
   - Assistant Professor or above is not eligible
   - Must devote 75% of time to cutaneous research
   - Mentor has an academic appointment in dermatology or another program at the sponsoring institution that is approved by the dermatology chair
   - NOT available to an individual receiving simultaneous salary support from another granting agency, other than NIH training grants

2. Fellowship in Pediatric Dermatology

   The Foundation’s pediatric dermatology fellowship fosters the development of clinical scholars in pediatric dermatology that will advance the field through patient care, research and teaching. This award is co-sponsored by the Dermatology Foundation and the Society for Pediatric Dermatology. The successful candidate must demonstrate a record of academic interest through publication and/or research. The ability to apply for competitive renewal of this award makes a second year of training possible to enable fellows without any previous pediatric training to complete the requirement of two years of fellowship training for accreditation in pediatric dermatology.

   **Award Amount:**
   - $45,000 salary stipend

   **Applicant Eligibility Requirements:**
   - M.D.; M.D., Ph.D.; or D.O. degree
   - Completed training in U.S. dermatology residency program
   - Board eligible or certified in dermatology
   - Is within five years of completion of residency at time of funding
   - Assistant Professor or above is not eligible
   - Must devote 50% of time to proposed research
   - Mentor is a pediatric dermatologist and a member of the Society for Pediatric Dermatology
   - NOT available to an individual receiving simultaneous support from another granting agency, other than NIH training grants
C. Research Grants

Dermatology Foundation grants are annual awards of $20,000. They provide funding that enables recipients to initiate a research project. All grants require the submission of a budget that details the planned use of award funds, and a research/development proposal. Award funds may not be used for the payment of indirect costs.

1. Patient Directed Investigation Grant

The Patient Directed Investigation Grant exists to support medical and surgical dermatologic studies that have the potential to directly benefit patients. Funding is intended to enhance the career development of clinical investigators in the early stages of career development. Applications will be judged by the Medical and Scientific Committee’s panel of recognized experts in applied medical and surgical dermatology. It is the expectation that the recipients of this award will be the future clinical leaders in dermatology, helping to shape the future of the specialty. Recipients may apply for a second year of funding on a competitive basis.

Applicant Eligibility Requirements:
- M.D.; M.D., Ph.D.; or D.O. degree
- Completed training in U.S. dermatology residency program
- Clinical investigator in early stages of career
- Project not funded from other sources

2. - 5. Research Grant, Dermatopathology Research Grant, Ichthyosis Research Grant, and Epidermolysis Bullosa Research Grant

The Foundation’s Research Grants provide financial support for research projects in dermatology and cutaneous biology that benefit the dermatology community at large. Special grants are available for research projects relevant to dermatopathology, ichthyosis and epidermolysis bullosa.

Applicant Eligibility Requirements:
- M.D.; Ph.D.; M.D., Ph.D.; or D.O. degree
- Dermatopathology Grant—Dermatologist or pathologist who will have completed a dermatopathology fellowship in a division or department of dermatology, pathology or dermatopathology at the time of funding, and is attempting to embark on a research career. Research proposals may include bench research, classical epidemiology, outcomes analysis or other approaches and should be clearly related to advancing the field of dermatopathology
- Ichthyosis Grant—project is relevant to Ichthyosis
- Epidermolysis Bullosa—project is relevant to Epidermolysis Bullosa
- All Research Grants—Investigator in the early stages of career development
- Project not funded from other sources
D. Program Development Grant

The Program Development Grant is a unique grant that provides funding to support the development of the scientific infrastructure in a dermatology division which has not successfully competed for Foundation funding during the last five years. Unlike other Foundation awards, this grant is available to the chair, chief or research director of a department or division of dermatology. The award has a one-year term and offers up to $10,000 in infrastructure support. Funds may be used (but are not limited) to:

- Acquire critical research equipment
- Stimulate a promising pilot project
- Facilitate travel of accomplished scientists to the department
- Support visits by young potential investigators to established programs at other institutions

**Eligibility Requirements:**

- Applicant must be the chair, chief or research director of the dermatology department or division
- Dermatology department/division is accredited for residency training in the U.S.
- Department or division has not successfully competed for funding from the Foundation during the past five years
- Project not funded from other sources
IV. Preparing and Submitting Application Materials

A. Preparing an Application Package

To begin, you will need to download an application checklist from the Foundation website, dermatologyfoundation.org. This form contains the complete list of application materials you will need to prepare and send to the Foundation to be considered for an award. There are four checklists (presented below). Each one is designed to be used for a specific award or category of awards. Be sure to select the appropriate checklist for the award for which you wish to apply.

1. Career Development Award Application Checklist
2. Fellowship Application Checklist
3. Patient Directed Investigation Grant and Research Grant Application Checklist
4. Program Development Grant Application List

Carefully follow the completion instructions provided below for each item listed on your checklist under “Required Application Materials”. Your application package must include only the items identified on your award-specific application checklist. Keep in mind that the table below contains items that may not be required for all awards. Do not attach any additional items (e.g., publications, cover letters, etc.).

<table>
<thead>
<tr>
<th>Application Materials</th>
<th>Completion Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application Checklist</td>
<td>The checklist will be the cover page for your application package. As noted earlier, it lists only those items you must prepare to apply for a specific award, and identifies those items that must have continuous page numbers. (Use the format “Page x”, centered at the bottom of each page.) Complete all sections of this form and use it as a guide to ensure your package is complete prior to submitting it to the Foundation office.</td>
</tr>
<tr>
<td>Research Award Application</td>
<td>This standard application form is available on the Foundation website and is used for all awards. Use Word or Adobe Acrobat to complete this form. Carefully check (√) the award you wish to apply for at the top of the form. Complete all remaining sections of this form. Note that the title of your project is limited to 100 characters including spaces and punctuation. Be sure to check “Yes” in box 31 if your project involves human subjects and will require IRB review. Print out the completed form and obtain all required signatures. This will be page one of your application package. Foundation grant applicants should not complete boxes 3n, 4d and 4e.</td>
</tr>
<tr>
<td>Applicant’s Biographical Sketch</td>
<td>Download and complete the Foundation’s biographical sketch form. This form is similar to the NIH standard format but requires additional information. See the sample form provided in section VII of this booklet for precise instructions. <strong>Your biographical sketch should be no greater than four (4) pages in length.</strong> Be sure section D is complete and the pages are numbered appropriately.</td>
</tr>
<tr>
<td>Mentor’s Biographical Sketch</td>
<td><strong>For all CDA and Fellowship Applicants</strong> – Attach your mentor’s biographical sketch in the standard NIH format. <strong>It must not exceed four (4) pages.</strong> Do not use the DF biosketch form. Be sure to enter appropriate page numbers at the bottom.</td>
</tr>
</tbody>
</table>
IV. Preparing and Submitting Application Materials (cont.)

A. Preparing an Application Package (cont.)

<table>
<thead>
<tr>
<th>Application Materials</th>
<th>Completion Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summary of Career Goals</td>
<td>On a separate sheet, briefly sketch your future goals in dermatology. Describe concisely your research project, and document clearly and specifically the importance of this award for your career plans. <strong>Limit your summary to one (1) page.</strong> Label this item “Summary of Career Goals.” Place your name, institution and award in the top right header and apply the appropriate page number at the bottom, in the required format. <em>This item is not required for Derm. Surg. CDA, Med. Derm. CDA, and all Foundation grant applicants.</em></td>
</tr>
</tbody>
</table>
| Detailed Budget | **For all Foundation Grant Applicants** – Provide a detailed budget on a separate sheet. Label it “Budget” and be sure to provide a header with your name, award and institution, and a page number at the bottom. Include a concise statement of how you propose to allocate funds (amount and purpose). Additional instructions follow:

1. **For All Research and Patient Directed Grant Applicants** – List each item of equipment with a unit acquisition cost of $500 or more. Itemize supplies such as glassware, chemicals and animals in separate categories. For animals, state how many are to be used, and unit purchase/care costs.

2. **For All Program Development Grant Applicants** – Separately list each item of equipment with a unit acquisition cost of $2,000 or more and provide a supply budget by category. |

| Research Proposal | The Foundation utilizes three research proposal formats that are presented below. Be careful to select the format required for the award for which you are applying. Your research proposals must describe a proposed project in sufficient detail for adequate evaluation by the Medical and Scientific Committee. Make every effort to be succinct. Use figures or tables that are clear and summarize your plans. Place your name, institution and award in the right, top header and number the pages appropriately. **Font size can be no smaller than 12 pt,** no more than 15 characters per inch, and no more than six lines within a vertical inch. **Leave one inch margins** on the left and right sides of the proposal text. **Do not append any material to your research proposal including submitted or published manuscripts.** |

**Research Proposal Format #1**

*Use the following instructions for preparing a proposal for:*

* Physician Scientist, Health Care Policy, Women’s Health and Research Career Development Awards
* All Foundation Fellowships
* All Research and Patient Directed Investigation Grants

Organize the document into the six sections below. **Items 1-6 must not exceed ten (10) pages in total, including figures, tables and literature cited.**

1. **Specific Aims** – Identify what you intend to accomplish, and the hypothesis that is to be tested.

2. **Background and Significance** – Describe why the research is important, and what has already been done in the field. Evaluate existing knowledge in the field and specifically identify the possible contribution your investigation may take.
### IV. Preparing and Submitting Application Materials (cont.)

#### A. Preparing an Application Package (cont.)

<table>
<thead>
<tr>
<th>Application Materials</th>
<th>Completion Instructions</th>
</tr>
</thead>
</table>
| Research Proposal Format #1 (cont.) | 3. Preliminary Studies – Detail what you have already accomplished on the project.  
4. Experimental Design/Training – Identify how you are going to accomplish the research. Describe in detail the experimental design, the process to be used, and the manner in which the data will be analyzed. Do not include details of established laboratory procedures. Define the circumstances under which the training is to be received.  
5. Organizational Structure – Describe in detail your organizational structure vis-à-vis dermatology and your mentor. Include where the work be performed, who will pay for the supplies, animals, and what your clinical and/or teaching duties will be during the period of the award. (Be sure your supporting letter from the chair/supervisor describes the nature of the linkage to a division or department of dermatology.)  
| Research Proposal Format #2 | Use the following instructions to prepare a research proposal for the Dermatologic Surgery and Medical Dermatology Career Development Awards.  
Items 1-2 below cannot exceed ten (10) pages, including figures and tables. Applications exceeding this page limitation will be returned.  
1. Project – The research proposal must be focused with clear aims which upon successful completion will add to the knowledge base of dermatologic surgery (for the Dermatologic Surgery CDA) or non-procedural dermatology (for the Medical Dermatology CDA).  
   a. The applicant shall describe (in no more than five pages) a project that develops new information in the field. The project outline should include the area of interest, details of the project, a three-year project timeline, discussion of how the project will add to the knowledge base of the field (i.e., dermatologic surgery or non-procedural dermatology), and description of the applicant’s time to be committed to the project.  
   b. Keeping in mind that this section accounts for 80% of the application evaluation, the applicant shall describe (in no more than three pages) his/her strengths, career development plans, mentorship and environment.  
2. Literature Cited – This information is limited to two pages of the proposal. |
| Research Proposal Format #3 | Use the following instructions to prepare a research proposal for the Program Development Grant.  
The application proposal should be brief, not exceeding two (2) pages. It should include an overview of the goal(s) that can be achieved or more closely approached by the seed funding offered through the Program Development Grant. |
## IV. Preparing and Submitting Application Materials (cont.)

### A. Preparing an Application Package (cont.)

<table>
<thead>
<tr>
<th>Application Materials</th>
<th>Completion Instructions</th>
</tr>
</thead>
</table>
| Letter of Support from Department Chair                    | *For All Career Development Award Applicants* – This item is a critical element in your CDA application package. The letter of support from the chair of the department or division of dermatology at your institution must contain:  
  1. Outline of a three-year plan defining the department’s commitment to the applicant including a description of the training environment, the supervision that will be provided, the qualifications of the supervisor for development of the applicant’s career, and the importance of the award and the project to the institution  
  2. Plans for future funding of the applicant  
  3. Certification that the applicant will devote the percentage of time required to the proposed research project (see eligibility requirements in section III)  

*For All Fellowship Applicants* – The chair’s letter must include:  
  1. Description of the training environment and supervision that will be provided  
  2. Sponsor’s assessment of the applicant’s likelihood for success in a career in the field (e.g., Pediatric dermatology, or clinical or basic research)  
  3. Importance of the fellowship and project to the institution  
  4. Approval of the mentor (*not required for Pediatric fellowship*) and assessment of his/her credentials for the applicant’s career development  
  5. Certification that the applicant will devote the required percentage of time

| Letter of Support from Mentor                             | *For all CDA and Fellowship Applicants* – The letter of support from your mentor must cover the following three topics:  
  1. Description of the training environment and supervision that will be provided  
  2. Importance of the award and project to the institution  
  3. Institution’s plan for the candidate’s career development |

| Letter of Support from Immediate Supervisor                | *For Research Grant Applicants* – Provide an original letter of support from your supervisor.                                                                                                                               |

| Two to Three Additional Letters of Support                 | *For all CDA and Fellowship Applicants* – You must submit two to three additional letters that support your selection for an award. These letters must be submitted as part of your application package. |

| Layman’s Short Statement                                   | On a separate sheet of paper, briefly describe your research proposal in layman’s terms. **Do not exceed 75 words.** Label the page “Layman’s Short Statement.” Place your name, institution and award name in the header of the document at the right margin. Be sure your margins are set at 1” and your font is no smaller than 12 pt. No page number is necessary. |

| Layman’s Long Statement                                    | On a separate sheet of paper, describe in greater detail your proposal and its significance, in layman’s terms. **Do not exceed one page.** Be sure to set your margins to 1” and use a font no smaller than 12 pt. Label the page “Layman’s Long Statement” and place your name, institution and award name in the header of the document at the right margin. No page number is necessary. |

| Original Figures                                           | Optional -- Provide two additional copies of original figures used in your proposal, if required for clarity.                                                                                                                             |

| 8” x 10” Black and White Photo (headshot)                  | *For all CDA and Fellowship Applicants* – Enclose an 8” x 10” glossy black and white photo of yourself (headshot only). Provide your name and institution on the back. This photo will be used for announcement purposes. |
IV. Preparing and Submitting Application Materials (cont.)

B. Submitting Your Application

Using your checklist as a guide, place all the items identified under Required Application Materials in the order they are presented. Be sure the pages of your package have been numbered, and that your name, institution and award are in the header of your proposal document. Use a binder clip to secure your application package--do not staple. Your final package must include the originals of your application materials and one photocopy. The Foundation recommends you retain a second copy of your materials for your own records.

Once your final package is complete and you are certain it meets all of the Foundation’s criteria, send it to the following address:

Medical and Scientific Committee
Dermatology Foundation
1560 Sherman Avenue, Suite 870
Evanston, IL   60201-4808

Your application package must be sent so that it arrives at the Foundation office on or before October 17, 2005. Application materials received after the deadline may be returned without further consideration.

If you have any questions concerning application submission requirements, you may contact the Foundation staff at (847) 328-2256 or dfgen@dermatologyfoundation.org.
V. Application Review

The Foundation’s Medical and Scientific Committee uses a weighted-value methodology to critique and rank award applications. Committee members evaluate each application using the criteria displayed in the following table, and assign a score for each category (Candidate, Mentor, etc.) based on the scale presented below. An application’s overall score is based on the weighted value of each category. Applicants are encouraged to consider the committee’s scoring process when developing their application materials.

1 – Outstanding        2 – Excellent        3 – Good        4 – Fair        5 – Poor

Overall Score : 

#
VI. Renewing a Career Development Award

All career development awards may be renewed annually for up to three years of total support. To be considered for a second or third year of funding, you must complete and submit a renewal application package. Approval of your renewal application is dependent upon availability of funds, evidence of significant progress on the research project, continued commitment to career development and the pursuit of additional funding.

A. Preparing Your Renewal Request

Your renewal package must include the following items:

1. Renewal Application Form
2. Articles, Chapters and Abstracts
3. Interim Research Report
4. Letter of Support from Dermatology Department Chair or Division Chief

Follow the detailed instructions provided below. For items 1-3, apply continuous page numbers at the bottom (centered, in the format “Page x”).

<table>
<thead>
<tr>
<th>Renewal Application Materials</th>
<th>Completion Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. CDA Renewal Application Form</td>
<td>Download this form from the Foundation website (dermatologyfoundation.org). Complete all sections of the form in Word or Adobe Acrobat. Print out a copy and be certain to obtain the required signatures. Use section 5 of the form as a checklist to be sure you have attached all the required material.</td>
</tr>
<tr>
<td>2. Article, Chapters and Abstracts</td>
<td>Prepare a list of your articles, chapters and abstracts that have resulted from your project. Please separate abstracts, peer-reviewed manuscripts, reviews and presentations. Indicate “published, in press, submitted, or presented” for each item and enclose copies. Place your name, institution and award in the right header of this document.</td>
</tr>
<tr>
<td>3. Interim Research Report</td>
<td>On separate sheets, state your original specific aims, and summarize your results and conclusions thus far. Indicate the present and potential significance to the field of dermatology. Use language directed to a sophisticated lay or clinical dermatologic audience. Restate your project goals and specific aims for the coming year. <strong>Do not exceed two pages.</strong> Use a 12 pt font with margins of 1”. Place your name, institution and award in the right header of this document. Optional—you may attach two copies of any original figures presented in this report.</td>
</tr>
</tbody>
</table>
| 4. Letter of Support from Dermatology Department Chair/Division Chief | The letter of support from your chair is a critical component of your renewal request. **The letter must contain the following information:**

1. Outline of a plan defining the department’s commitment to the applicant including a description of the training environment, the supervision that will be provided, and the importance of the award and the project to the institution
2. Plans for future funding of the applicant
3. Certification that the applicant will continue to devote at least the percentage of time required (see eligibility requirements in section III) to the research project |
VI. Renewing a Career Development Award

B. Submitting Your Renewal Package

Once all components of your package are complete, make one photocopy of all items (except the original figures). Use a binder clip to secure your pages—do not staple. Submit the complete package (items 1 – 4) and the photocopy to the Foundation at the following address for receipt on or before November 1, 2005.

Dermatology Foundation
1560 Sherman Avenue, Suite 870
Evanston, IL 60201-4808

If you have any questions regarding the renewal application process, please contact the Foundation staff at (847) 328-2256 or dfgen@dermatologyfoundation.org.

**5. RENEWAL APPLICATION CHECKLIST**

- □ 5a. List your articles, chapters and abstracts that have resulted from this project. Indicate published, in press, submitted or presented. Separate abstracts, presentations, reviews and peer-reviewed articles. Enclose copies.
- □ 5b. On separate sheets, state your specific aims, and summarize your results and conclusions thus far. Indicate the present and potential significance to the field of dermatology. Use language directed to a sophisticated lay or clinical dermatologic audience. Restate your project goals and specific aims for the coming year. Do not exceed two pages. Optional--include two copies of any original figures used.
- □ 5c. Attach a letter of support from your department or division chair. This letter should clearly outline the department’s continued commitment to your career, plans for future funding, and certification of your time commitment.
- □ 5d. Make a photocopy of the application form and items 5a – 5e (except original figures).
- □ 5e. Send your complete renewal package and photocopy to the Foundation for receipt on or before November 1, 2005.

---

Exhibit VI
VII. Dermatology Foundation Application Forms

Every new award application requires three standardized forms:

- Application Checklist
- Research Award Application
- Applicant Biographical Sketch

While the application and Foundation biosketch forms are used for all awards, there are four award-specific versions of the checklist. Each is labeled to reflect its intended use (see below). Be sure to select the correct checklist for your application. The checklist provides a complete list of materials required to prepare an application package for a particular award.

1. Career Development Award Application Checklist
2. Fellowship Application Checklist
3. Patient Directed Investigation Grant and Research Grant Application Checklist
4. Program Development Grant Application Checklist

Applicants must download these forms from [www.dermatologyfoundation.org](http://www.dermatologyfoundation.org), and use Microsoft Word or Adobe Acrobat to complete them. Candidates who wish to use Word must have Word 2000, Word 2002 or greater to successfully access and complete the required forms. Adobe Acrobat users must have the full version of 5.0 or greater, Standard or Professional edition. (The full version includes the “writer” component which is essential to complete the forms.)

Exhibits A - F are copies of all the Foundation’s standardized forms required for new award applications.

8. Optional -- Two Copies of Original Figures
Applicant Biographical Sketch

Education and Training
(Begin with baccalaureate or other initial professional education. Include medical internship, residency training and other postdoctoral training.)

<table>
<thead>
<tr>
<th>Education and Training</th>
<th>Position Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Institution and Location/Hospital</td>
<td>Degree (If applicable)</td>
</tr>
<tr>
<td>(For postdoctoral training, identify program name and director.)</td>
<td></td>
</tr>
</tbody>
</table>

Instructions:
The Biographical Sketch may not exceed four pages. Complete sections A through D as directed. Items A, B and C (together) may not exceed two of the four-page limit.

A. Positions
List, in chronological order, previous positions concluding with your present position. Identify the institution, program name and program director for all research positions.

B. Academic Honors
List any academic honors you have received in this section.

C. Publications/Presentations
List your publications/presentations in chronological order. Please separate abstracts, presentations, reviews and peer-reviewed articles. Do not include manuscripts in-preparation.

D. Research Support
List any past (during the last three years), current, and pending research support. Identify for each item:

1. Title
2. Brief statement of project goal
3. Source of support
4. Start date/end date
5. Amount
6. Principal investigator
7. Any budgetary overlap with this application (In instances of overlap, indicate how these applications will be adjusted if funding is received.)

Exhibit VII-F
VIII. Frequently Asked Questions

1. Can I apply for a career development award and a grant?
   Yes. Be sure to submit a separate application package for each award.

2. Can I apply for a fellowship and a grant?
   If you are applying for a DF Fellowship, you are not eligible to apply for a grant.

3. Must I have IRB approval for my research project at the time I apply for an award?
   No. If your project involves human subjects, simply select “Yes” in box 3l on the award application form. However, if you are selected to receive the award, you must obtain and provide proof of IRB approval prior to the start of the award period—July 1, 2006. Award funds cannot be disbursed without formal documentation that identifies the start and end date of the approval period.

4. I would like to apply for a career development award and it requires that I have a faculty position. My faculty position will not be effective until July 1, 2006, can I still apply for the award?
   Yes. All of the award eligibility requirements must be met at or before the time of funding—i.e., as of July 1, 2006. Your application materials should clearly document that you will meet the faculty eligibility requirement by July 1. Specifically, your letter of support from your Dermatology Department Chief or Chair should clearly state the faculty position you will have and the effective date. In addition, you will need to provide confirmation of your appointment just prior to the start of the award period.

5. How many awards are funded in each award category?
   The Foundation does not fund awards based on a quota. Instead, the number of awards funded each year is based on the number of meritorious applications submitted and available funds.

6. Can I submit my CV in the NIH format rather than on the DF’s biosketch form?
   Your CV must be submitted using the Foundation’s biosketch form that is available on the DF website. The Foundation’s biosketch was designed to capture information not found on the NIH form. If your application package does not contain the DF biosketch form, it may be returned.

7. Can my letters of support be sent later/separately?
   Your letters of support may be sent separately in sealed in envelopes. However, they should arrive on or before the application deadline of October 17th.
VIII. Frequently Asked Questions (cont.)

8. Should I provide additional copies of original figures, as indicated on the award application checklist?

You have the option of providing additional copies of original figures used in the body of your research proposal. You may wish to do this if you believe the figures in your proposal would be difficult to read/see when reproduced in black and white. The original figures would be provided to the reviewers assigned to your application.

9. How many copies of the application package do I need to send?

You will need to send the Foundation one original and one photocopy of your full application package. Be sure to keep one copy for your records.

10. To meet the application deadline, can my application be postmarked by October 17th?

No. To be considered for a 2006 research award, your complete research application must be sent so that it is RECEIVED at the Foundation office on or before Monday, October 17, 2006. Your application should be sent to the following address:

Medical and Scientific Committee
Dermatology Foundation
1560 Sherman Avenue, Suite 870
Evanston, IL 60201-4808

11. When will the award recipients be announced?

The 2006 award recipients will be announced at the Foundation’s Annual Meeting on Saturday, March 4, 2006 in San Francisco. If you are unable to attend the meeting, you will find a list of the 2006 recipients on the DF website following the Annual Meeting.
