11. Briefly, give a short statement of your future career plans, and whether they will be in academics or in the clinical practice of medicine.

12. List your articles, chapters and abstracts that have resulted from this project. Indicate published, in press, submitted or presented. Separate abstracts, presentations, reviews and peer-reviewed articles. Attach copies.

13. Briefly state the aims and objectives of the project. Comment on the evolution of the project and how/why modifications were made. Was any major current dogma contradicted or changed?

14. In language directed to a sophisticated lay or clinical dermatologic audience, attach a summary of the results and conclusions of your research project. We would be most interested in an honest analysis of:

- ♦ What was learned?
- ♦ What type of intellectual growth or maturity occurred as a consequence of the project?
- ♦ How can this experience benefit those who follow?
- ♦ Suggestions for other researchers, i.e. what mistakes were made?

Please include a short paragraph that summarizes the present and potential significance to the field of dermatology. Do not exceed one page.

Research Certification:

I hereby certify that _____ had the protected time necessary during
(award recipient)
the Research Award Period shown on page 1 to complete the project as proposed in his/her award application.
