

Every disease we see in the practice of dermatology has new treatments, or even cures, awaiting development.

DF Dermatology
Foundation

**SHAPE THE
FUTURE OF
DERMATOLOGY**

The Dermatology Foundation funds research with the greatest potential to lead to new treatments.

Every time we bring hope and relief to a patient today, we're standing on our specialty's foundation in scientific research and our legacy of innovation.

Every practicing dermatologist and every patient benefits from the progress we make in research. **That's why it's so important that we invest together through the Dermatology Foundation.**

Because of member support over 50 years, we have:

- **Deepened our understanding** of diseases and conditions including psoriasis, atopic dermatitis, inflammatory dermatoses, and autoimmune skin diseases.
- **Developed innovations** including topical therapies for skin cancer, outcomes research and biologic therapies.
- **Kept talented researchers working in our field** by supporting their work at critical points where private funding is the key to their continued success.

Dermatology Foundation at a glance

50 years of investing in the advancement of patient care

501(c)(3) charitable organization founded by 10 physicians and scientists

Largest private funder of research in dermatology

Awarded over **\$70 million** in funding since 1964

Annual DF Clinical Symposia presents the latest authoritative clinical information for practicing dermatologists

Dermatology Focus quarterly publication communicates current advances in investigative dermatology

The innovations your patients need are waiting to be developed. They begin today, with you.

When you become a member of the Dermatology Foundation:

1. You make a commitment to help advance all of dermatology.
2. You invest in the discoveries that will change your patients' lives and change the way you work.
3. You make your contribution to the brightest future for our field.

Everything the Dermatology Foundation does is driven by the support of members—and every member has a direct impact on the DF's ability to support progress. There are a range of membership levels available, with options for every stage of your career and life.

**JOIN US TODAY
TO SHAPE THE
FUTURE OF
DERMATOLOGY**

In dermatology today, we routinely diagnose and treat complex conditions that frustrated physicians mere decades ago—**yet more powerful discoveries are still ahead of us.**

Tomorrow's life-changing clinical innovations are within reach—but only if we invest in our foundation of research today.
