CLINICAL INSIGHTS THAT EXPAND EXPERTISE AND ADVANCE PRACTICE

Volume 43, Number 4 | April 2022

DIAGNOSTIC BIAS IN SKIN OF COLOR

EXCLUSIVE
COVERAGE FROM
THE 18TH ANNUAL
SKIN OF COLOR
SYMPOSIUM

Loren Kreuger, MD, talked with *Dermatology Times*[®] about her recent research on the disparities in clinical decision-making facing patients of color.

KATIE HOBBS | *Editor*

Disparities in treating patients of color for dermatologic disorders extend beyond macro concerns such as accessibility and awareness to medical issues such as bias in clinical decision-making, according to research presented at the 18th Annual Skin of Color (SOC) Scientific Symposium held March 24, 2022, in Boston, Massachusetts.¹

ABOUT THE DERMATOLOGY FOUNDATION

The Dermatology Foundation is the only nonprofit organization focused on ensuring the pipeline of discovery and innovation advancing our understanding of skin is funded – ultimately leading to better care of patients. With the support of our members and friends, since 1964 we've invested over 80M in promising investigators and groundbreaking research and continue to have an unwavering commitment to save skin... and lives. A recognized 501(c)(3) organization, learn more at dermatologyfoundation.org.
