## DERMATOLOGY FOUNDATION® CME POLICY ON COMMERCIAL EXHIBITORS

The Dermatology Foundation® has adopted a policy on conduct of commercial exhibitors at its live CME activities that adheres to the guidelines of the ACCME and the Pharmaceutical Research and Manufacturers of America (PhRMA) Code on Interactions with Healthcare Professionals. The PhRMA Code on Interactions with Healthcare Professionals, revised in August 2021, reaffirms that all interactions between company representatives and healthcare professionals “should be focused on informing the healthcare professionals about products, providing scientific and educational information, and supporting medical research and education.”

The exhibit area may not be in the obligatory pathway of physicians coming to and from the educational activity. It will be kept separate from the education portion of the event. Displays must be educational in nature. Consistent with the changes adopted in August 2021, any non-educational items (such as pens, mugs and other “reminder” objects typically adorned with a company or product logo) are specifically prohibited.

Per CME compliance, the Dermatology Foundation® does not distribute or allow access to the attendee list.

Refunds are not permitted in the event your company must cancel the display.
